

Agri-chopper

A powerful chopper for big bales

Benefits

- ✓ The knife system cleanly cuts hay or straw into high-quality feed or bedding.
- ✓ The large swing-open doors on the tub make it easy to load big bales.
- ✓ The feed grate is hydraulically adjustable, giving control of the output rate from the tractor seat.
- ✓ Mobile units are equipped with a powerful blower capable of spreading bedding up to 40' (12 m) away.

Heavy duty chopper to quickly process large volumes of feed or bedding.

Features

Stationary or mobile versions

Retractable baffles and adjustable grate

Drive chain system

Large rotor and high quality knives

Bedding

The Agri-Chopper chops big bales of straw, cardboard or paper to make fluffy and absorbent bedding. Thanks to its powerful blower, it can be used to spread bedding evenly up to 40' (12 m) in free stall barns, hog barns and poultry barns.

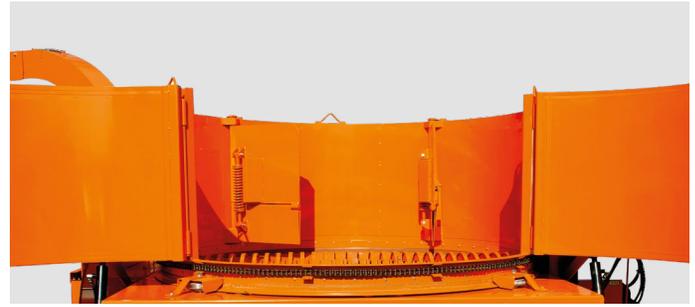

Feeding

The Agri-Chopper lets you add the exact quantity of chopped hay into every recipe to deliver a more thorough mix while lessening the stress on your mixer. Whether using large or small bales, square or round and wet or dry, the Agri-Chopper makes short work of big feeding jobs.

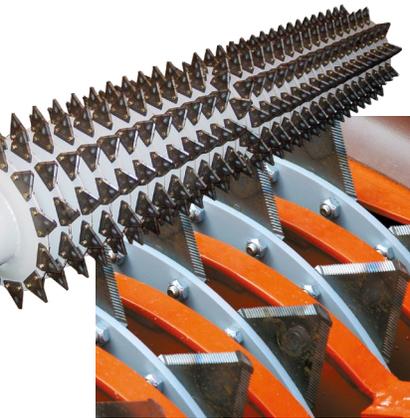

Hydraulic adjustable deflector (option)

To direct the flow, the deep sided chute has an adjustable deflector and can be pivoted 360° either manually or from the tractor.

Large tub

The large diameter tub features large doors to facilitate the loading of big bales.

Sturdy rotor and rigid knives

The large diameter and heavy weight of the rotor easily powers through tough material. The sturdy rotor is equipped with sharpened rigid knives, delivering precise cutting and high capacity. Special knives are used to chop cardboard or paper.

Tub extension (option)

A conical extension is available to prevent overflow of the tub when filling with big square bales.

Options & accessories

// Hydraulic or manual control chute

// Choice of grate for regular, fine or extra-fine cut

// Auger or blower discharge (stationary only)

Rotor diameter: 20" (51 cm)

Weight: H-5500: 615 lb (279 kg) / H-5600: 710 lb (322 kg)
